

**Microsoft™ Works Suite 2004**

**Great software collection, great value!**  
Works Suite has always been a great software collection, and Works Suite 2004 has been improved to offer even more value:  
**My Projects organizer** helps you manage any project—big or small. Plan a party or vacation, prepare for the holidays, and organize club or school activities using this helpful tool.  
**More than 500 new, professionally designed templates** are ready to help make your projects easy and fun. From party invitations and newsletters, to greeting cards and school reports, there is something for everyone.

**Six Microsoft products in one box.**

- **Microsoft Word 2002** - Use the same premier word processor featured in Microsoft Office XP.
- **Microsoft Works 7.0** - Organize your household with spreadsheets, a calendar, an address book, a database, and more. Open and edit documents created with Microsoft Excel and exchange data with your Pocket PC or Palm-based device.
- **Picture It!® Photo Premium 9.0** - Use photos from digital cameras, scanners, photo CDs, and e-mail attachments. Organize your photos, correct common photo problems, create great photo projects, and share your photos online.
- **Encarta® Encyclopedia Standard 2004** - Access more than 38,000 up-to-date articles, plus photos, illustrations, hundreds of videos, animations, and audio files.
- **Microsoft Money 2004 Standard** - Organize and manage your personal finances quickly and easily.
- **Microsoft Streets & Trips 2004**

**NAf 0 down**

as low as **f 2,12** /mo. lease\*

**Microsoft™ Office 2003 Professional**

**Increase Productivity and Collaboration**

- **Word 2003** - Create, read and share word processing documents quickly and effectively
  - **Excel 2003** - Analyze and share spreadsheet information
  - **Outlook 2003** - Manage e-mail, schedules, tasks, notes, contacts and other personal information
  - **PowerPoint 2003** - Create, present and collaborate on presentations with real impact
  - **Publisher 2003** - create, design and publish professional-quality documents for print, the Web or e-mail
  - **Access 2003** - Create powerful database solutions that make organizing, accessing and sharing information like addresses and family photos easier than ever
- **Compatibility** - Office 2003 applications are backwards compatible with Office 2000 and Office XP (2002), so you won't have a problem opening your files back and forth.

Established 1986

Efronix in cooperation with Telelease and UTS, introduces the: **Financed Employee PC-Private Plan™ (FEPPP™)**

**What is it?**

The Financed Employee PC-Private Plan™ is a Personal Computer project initiated by Efronix N.V. and Telelease N.V. Efronix is an ICT company established in 1986 serving the small & medium business market. Telelease is a company within the UTS group that renders financial services to the ICT sector. For the last 7 years Efronix and Telelease have been providing complete ICT solutions through business leasing to the small and medium business sector. FEPPP™ is intended for staff and personnel of locally registered and established companies. The equipment is financed through an Operational Lease which generally provides the lowest monthly payment. The lessor (Telelease) retains ownership of the assets. At the end of the lease (36 months), the lessee can either:

- Upgrade to the latest technology (new lease) and return the old equipment
- Renew your lease at a very low monthly payment (prolongation, 4th Year only)

**How does it work?**

Provided that your employer, Efronix and Telelease have entered into an agreement, employees who want to apply, have to fill out a Microsoft Excel Order Form which can be downloaded from [www.efronix.com/feppp](http://www.efronix.com/feppp). The completed form can then be submitted by e-mail to [feppp@efronix.com](mailto:feppp@efronix.com). When the closing date has arrived, Efronix sends a list of all applicants and amounts to the personnel department for approval.

**The roll of the participating company.**

Your employer will be required to deduct the monthly lease payment from your salary. In order to comply with current law, the company will be required, to check the monthly payment amount with your salary records. The monthly deduction may not exceed or contribute to exceed more than 1/3 (one-thirds) of the gross-salary. If your application is approved, you will receive a lease-contract to be signed by the applicant. Payment deductions start the month after the equipment is confirmed delivered to the employee. The company will be required to immediately inform Telelease if an employee submits its resignation or is fired. The company may be requested to withhold the remaining balance from the employee in such case, unless an agreement is reached with the new employer of that lessee.

**Why FEPPP?**

Companies benefit from employees that have up-to-date Information Technology at home. They have more time to learn current and newer applications at home and stay up to date on the latest through a fast internet connection. Efficiency is thereby greatly improved in the workplace.

In the past, some companies would finance their own pc-private projects, or employees could apply for a loan with a local bank. While many employees are still paying their 3-year loan at the bank, they are encountered with additional payments after their 1-year warranty expires. Breakdowns occur, and the owner finds itself spending more money on replacement parts and labor hours to have them replaced.

FEPPP includes a full 4-Year Parts and Hardware Support Warranty on Desktops and Notebooks (software support not included) and 3-Years on Printers and Scanners. This guarantees that the user, can forecast zero cost on maintaining the computer in working condition for the following 4 years. For more important details, see also page 4.

\*See also Page 4 for important details.
